EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. P. Hoffman, esq., on 09/15/2004.

The application has been amended as follows:

In claim 1 after the words "directly spraying with the desired liquid" insert the word ---only---

In claim 12 after the words "directly spraying with the liquid" insert the word ---only---

In claim 12 after the words "liquid is supplied to the substrate" insert the clause ---, whereby said substrate is evenly treated at said surface thereof with said desired liquid while avoiding development of such a situation that flows of said desired liquid run against each other on said surface of said substrate or a flow of said desired liquid stagnates on said surface of said substrate---.

In claim 21 after the words "desired liquid spray" insert ---only---

In claim 25 after the words "the top cover with the liquid spray" insert ---only---

Response to amendment

2. All previous rejections and objections have been overcome by the amendment, filed 06/30/2004 in combination with the Examiner's amendment and the said objections and rejections are withdrawn.

Allowable Claims

3. Claims 1-6, 12-25 are allowable over the prior art of record.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: Applicants amended claims 1, 12, 21 and 25 introducing the limitation of spraying with desired liquid **only** the top cover of the chamber. In addition, Claim 12 is amended to particularly point out how the desired liquid is dispersed over the substrate surface. Such limitations in combination with the other processing steps are not anticipated or fairly suggested by prior art references. The reference to Elftmann et al (U.S. 3,990,462) should be indicated as the closest prior art of record. While teaching a similar method of wet treatment of substrates, Elftmann provides spraying of rotating substrates from the spray post and simultaneous spraying of spray post and the inside chamber surfaces from pipes, extended upwardly through the turntable at diametrically opposite locations and fitted with a plurality of spray nozzles. Such spraying in Elftmann develops the situation, wherein flows of liquid run against each other, which teaches away from the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Kornakov whose telephone number is (571) 272-1303. The examiner can normally be reached on 9:00am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on (571) 272-1414. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
